

MBA IN HEALTHCARE & HOSPITAL MANAGEMENT

The UCSI University Graduate Business School MBA in Healthcare and Hospital Management in collaboration with UCSI Healthcare is a one-year programme that is designed to equip participants with fundamental knowledge and skills essential for effective management in the dynamic healthcare industry. Tailored for healthcare professionals, administrators, and aspiring managers, the course integrates theoretical learning with practical insights, fostering critical thinking and problem-solving abilities. Participants will also gain exposure to modern healthcare trends, patient care strategies, and leadership techniques, ensuring they are well-prepared to excel in the fast-evolving healthcare sector. Pursuing an MBA in Healthcare and Hospital Management is a strategic choice for those looking to blend business acumen with a passion for the healthcare industry as it serves as a valuable credential for those aiming to enhance their careers in healthcare management.

UCSI Healthcare is a leading healthcare provider in Malaysia. Under the visionary leadership of Tan Sri Dr. Noor Hisham Abdullah, the former Director-General of Health and the country's most renowned health administrator during the COVID-19 pandemic, UCSI Healthcare is setting new standards in medical excellence and patient care. With a focus on innovation, accessibility, and holistic wellness, UCSI Healthcare offers a comprehensive range of services, from primary care to advanced medical specialties. Its integrated ecosystem of clinics, a state-of-the-art modern hospital, and academic affiliations makes it uniquely positioned to offer the MBA in Healthcare and Hospital Management.

Combining practical exposure in operational hospital environments with expert-led lectures from experienced healthcare leaders, UCSI Healthcare ensures students receive unparalleled insights and training, empowering them to excel in the dynamic healthcare industry.
